Please Note: We love children and want to make sure they are kept safe. All children must be supervised at birthday parties. McBrayer Ranch has live animals and we need to make sure neither the animals or the children are hurt. Children are not allowed inside the animal gates without someone from McBrayer Ranch. Children should not go outside of the fences towards the house. Children tend to wonder off because of the swing set and pool at the residence. This is a private residence and is off limits without prior approval from McBrayer Ranch.
